## CHRISTIE'S LONDON COLLECTOR SERIES OF DECORATIVE ARTS SALES TOTAL £5,919,438 / \$7,778,142 / €6,594,254

**Orlando Rock, Co-Chairman, Decorative Arts**, comments, "Following the successful inaugural series of THE COLLECTOR at Christie's New York in October, the London launch was also well received. Within the complimentary setting of the pre-sales exhibition, Christie's hosted the launch of Judith Goodison's important new book on Thomas Chippendale Junior and an inspiring panel talk for the Haute Bohemains book launch with Miguel Flores Vianna, Min Hogg and Martina Mondadori Sartogo of Cabana magazine. The energy and enthusiasm for this new sales format translated into increased cross category buying and solid results across the three auctions, with some very strong prices achieved, including the re-discovered George III giltwood mirror by William Mathie. Collectively, the auctions attracted registered bidders from 45 countries across 6 continents. We look forward to continued success with the launch of THE COLLECTOR in Paris, week of 27 November, alongside the annual Paris Exceptional sale."
